FIAMM At Automechanika 2018

[Attachment]

From September 11 to 15, FIAMM will bring its energy for the automotive world at **Automechanika Frankfurt**, world's leading trade fair for car accessories and spare parts, components and services.

FIAMM will present, in an international preview, the **new ecoFORCE range specifically designed for cars with Start&Stop**. The new range includes batteries with AGM and AFB® technology, models for European and Asian cars and now offers more than 15 specific models.

For the aftermarket of traditional and commercial vehicles, the **FIAMM Titanium PRO and black Titanium** ranges are confirmed as they ensure high performances, peak power, top-notch reliability and safety, along with **FIAMM energyCUBE and powerCUBE** which secure higher energy and better cranking power in critical conditions for commercial vehicles.

FIAMM solutions address also the world of the 2 wheels and leisure vehicles, with the **FIAMM Motor Energy** battery family for all applications, from small scooters to powerful motorbikes.

We look forward to welcoming you at **Stand C10, Hall 4.1!**
