

ALL BATTERIES RANGES

AGM VRLA

FIAMM AGM batteries have optimized internal gas recombination and are maintenance free without topping up. They are non-spillable, non-harzardous for transportation and 100% recyclable.

AGM VRLA SSLA

The SSLA battery range has been designed to cover a wide range of applications. The footprint of products are ideal for critical installations. Connection is simple on smaller models sizes thanks to the easy ‘fast-on’ terminals.

GEL VRLA

FIAMM GEL batteries are maintenance free and combine the benefits of a gelled electrolyte which provides a longer life and wider temperature operating range.

FLOODED

FIAMM vented batteries are available for several discharge profiles and for applications with unstable grid and deep discharge rate. Minimun maintenance and topping up are required.
